

STEEL UNDERCARRIAGE WARRANTY

Components covered: Track Groups, track link assemblies, shoes, rollers, idlers and sprockets.

These components are warranted against breakage or leakage for 3 years, 4000 hours, or until the bushings are 100% worn, whichever comes first. Pins and bushings need to be turned prior to link height reaching 55% worn. Link assemblies equipped with low ground pressure or wider than standard shoes will be subject to a 50% deduction of time and cost of chain parts at time of repair (swamp shoes are not covered).

Covered items will be repaired or replaced (no charge) for first eighteen months or two thousand hours then after this time they will be prorated based on percentage of wear.

All travel, labor or transportation cost is the customer's responsibility.
